

OPEN INDUSTRY 4.0 ALLIANCE

OPEN TO ACCELERATE
BUSINESS AS ONE

VISION AND MISSION

The goal of Open Industry 4.0 Alliance? Holistically developed guidelines for Industry 4.0 solutions and services – and thus achieving real value for members and their customers. A framework developed by leading companies serves as the basis for a variety of industries.

**WORK TOGETHER
TO DELIVER
CUSTOMER VALUE**

**CREATE A VIABLE
ECOSYSTEM**

**ENSURE
OPERATORS & OEMS
COLLABORATE**

**AGREE ON COMMON
SEMANTICS AND
FRAMEWORKS**

The Alliance creates substantial advantages: Guidelines and solution-catalogues – both designed hand in hand by member companies. Members and their customers can effortlessly integrate into their on-site production. This is how the Alliance drives the digitalization of production factories, processing plants, and warehouses of operators as well as manufacturers of assets in a targeted manner.

HOW TO STAND OUT

Cooperation instead of competition – this is where the Alliance differs from other initiatives. It continues to grow, and with it the scope for opportunities and the potential for innovation. The members are already mastering the challenges of Industry 4.0 together successfully.

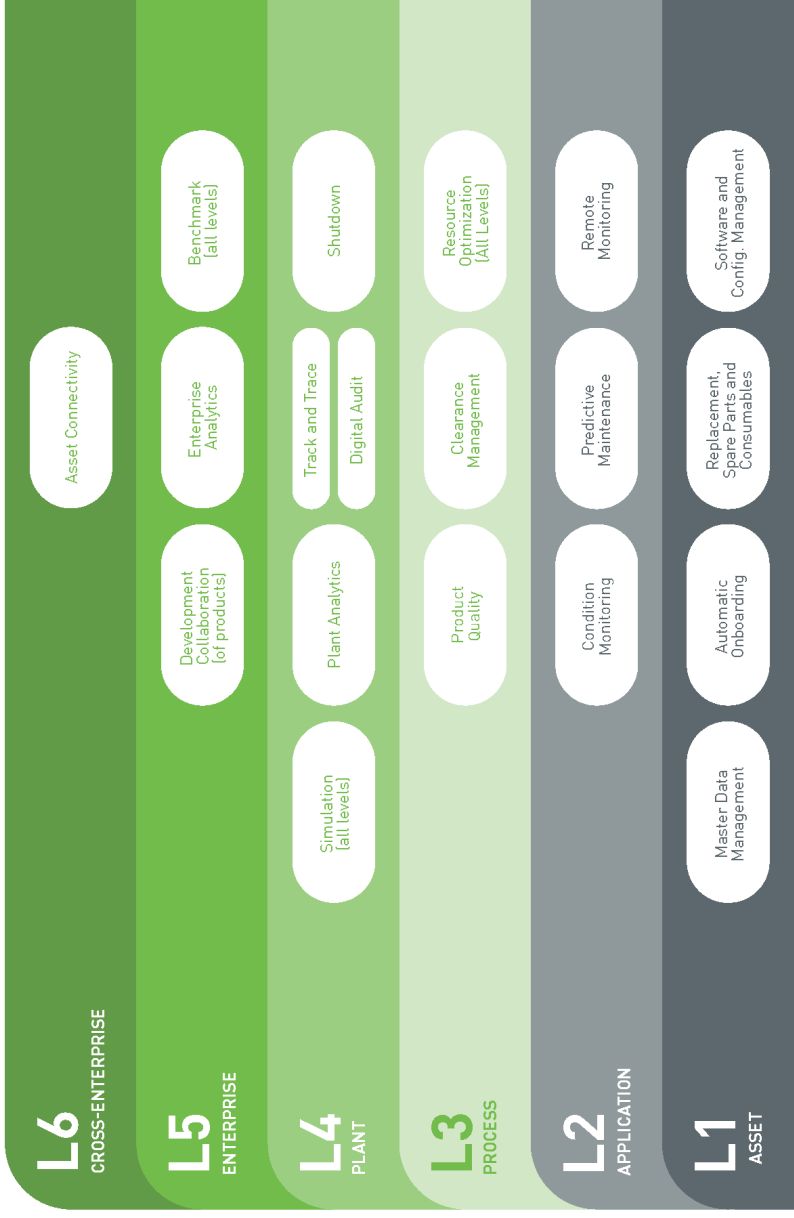

The key differentiators at a glance

<p>OPENNESS Interoperable and welcoming at once</p>	<p>SCALABILITY AND GROWTH For all companies, today and tomorrow</p>	<p>DATA CUSTODIANSHIP Operators stay in control</p>
<p>BROWNFIELD COMPATIBILITY Easily leverage existing investments</p>	<p>REPUTATION The Alliance stands for quality and trust</p>	<p>BUILT-IN NETWORK Valuable collaboration and communication</p>
<p>LOW RISK Zero vendor lock-in plus an open approach</p>	<p>ASSET REPOSITORY Centralized for easy sharing and collaborating</p>	<p>STRONG ECOSYSTEMS Powered by the sum of many</p>
